NEVILLE BUYS LOCUST STREET PROPERTY.

M. K. Neville Saturday bought the old Dick property on the corner of Sixth and Locust for a consideration of \$6,250. The lot is 66x132 and was owned by Mrs. Jennie Foley, now of Boston. The sale was made by T. C. Patterson, who made sales of practically all the Foley holdings in North Platte and Lincoln county, the total of which run up to about \$100,000. This was the last piece of property here held by the Foley family.

We understand that Mr. Neville will improve the lot with a building in the near future—probably next spring.

Lucille Halligan Passes Away.

Lucille, only daughter of Mr. and Mrs. John J. Halligan, of this city, passed away at nine o'clock Saturday morning. Death followed an illness of several years, an incurable disease developing. She was taken to specialists in Omaha and eastern cities, but they could hold out no hope for her recovery. For several days preceding her passing away her condition had been such as to preclude a much longer stay on earth.

Lucille was born in Omaha in August, 1894, and came to this city with her parents when a small child. She bore her affliction patiently and though denied in a large measure the pleasures of life, she was, under the conditions, most cheerful. The father, mother and brothers anticipated her every want, and cared for her with a devotion that only the deepest love could bestow. While all will miss Lucille, there is in comfort in the thought that she has been released from years of intense suffering.

The funeral was held from the residence yesterday afternoon. Dean Bowker officiating and a male quartette rendering the music. Many beautiful floral offerings from societies and individuals were sent.

Mr. and Mrs. W. C. Cole, of New York City, left at noon yesterday after visiting the latter's brother John Den for several weeks.

K. C. BUILDING PROJECT ASSUMING TANGIBLE SHAPE.

The trustees of the Knights of Columbus aided by other members of the organization, who have had under consideration the erection of a building on Dewey street north of the Hotel McCabe, are getting the project in tangible shape. There is scarcely any question but that the preliminary arrangements will be completed so that work may be started early next spring. The question as to whether the building will be two or three stories has been definitely settled in favor of three floors; the trustees have successfully devolved a plan for financing the building and a firm has offered to take a ten year lease of the first and second floors. The estimated cost of the building which will be 44x122, is \$23,000. The third floor will be used by the local council for lodge and entertainment purposes.

The erection of this building, and the probable erection of an additional building by the Elks on their vacant forty-four feet, would prove a wonderful addition to that part of Dewey street as a business section.

Christmas Baskets for Poor.

Mrs. Geo. McKay has been asked to take charge of the work of soliciting for the Christmas baskets which the Twentieth Century Club will distribute. To make the filling and distribution of these baskets a success the Club needs the co-operation of all those who are interested in this sort of Christmas giving and trusts that the solicitation will meet with the usual generous response. If there is any one desirous of making a donation that Mrs. McKay fails to reach, the Club will appreciate it if they will phone her any evening between seven and eight o'clock. Contributions are to be sent to the basement of the Episcopal church Friday morning, December 24th.

200 COATS 200

Still left to be cleaned up during this sale. If you are yet to get your coat, you had better make your selection now as they are going pretty fast at the low prices we are selling them.

The branch train was held an hour this morning waiting for train No. 13, which did not arrive until nine o'clock. There were ten passengers on No. 13 that desired to go out on the branch train.

ELKS INSTRUCT TRUSTEES TO SECURE PLANS

At a largely attended meeting of the Elks last evening a resolution was unanimously adopted instructing the board of trustees to secure plans and estimate of cost for an extension of the present building over the two vacant lots on the north. The membership present last evening was very enthusiastic over the project and it is very probable that the building will be erected next spring. It is the intention to have the building, which will be 44x80 feet, conform in architecture with the present building. The ground floor will be for business houses and the second and third floors for lodge purposes. The present banquet and amusement rooms are too small to accommodate the present membership which is 298, and this number is steadily increasing. The trustees will make a report on the plans and cost at the first meeting in January.
